

Help us give healthier, happier lives to children with facial disabilities

Could you fundraise for our project in Ethiopia?

A small amount of change can make a large amount of difference in Africa.

- Ten pounds buys medicine, x-rays and scans for one patient
- Fifty pounds secures microsurgery and overnight intensive care treatment.
- Three hundred pounds gives a child life-changing care.

With UK admin costs covered by our trustees, every penny you raise will go towards our Ethiopian work. You could make a huge difference – and here are some ideas to get you started.

Gemechis , 1, with his mother just before his successful operation

TAKE UP THE CHALLENGE

Challenges are a fantastic way to raise vital funds for Project Harar, while doing something fun or unusual. Our supporters have run marathons, climbed Kilimanjaro, and even rowed the Channel. If that sounds a bit extreme, could you take part in a sponsored walk? Or shave your head for charity? You're limited only by your imagination!

RUN AN EVENT

You could run a bake-sale, film-showing, sponsored sleep-over, or invite your friends round for dinner. Ask them to donate a couple of pounds each for Project Harar, and you can enjoy a good evening while raising essential funds for our cause.

HELP SPREAD THE WORD

We try hard to raise awareness of our cause and reach out to new supporters. If you haven't joined our [Facebook page](#) or signed up to [our website](#), please do! And invite all your friends. We also love to talk about what we do, so if you know any school or society who would be interested in finding out more about our work, please put them in touch.

FUNDRAISE WITHOUT THINKING!

Sign up to easyfundraising.org.uk, and you can make money for charity while you shop. Use online retailers such as Amazon, John Lewis, and HMV, and a percentage of what you spend goes directly to Project Harar. It doesn't cost you a penny extra. Everyclick.com also raises money for charity while you use the internet. Every time you search a small amount of the advertisement money goes to the charity of your choice. Their top charity is making £60,000 a year – so there's plenty of potential to help!

COMPANY FUNDRAISING

Would your company be interested in publicity, increased employee satisfaction and general good karma? Those are just some of the benefits of partnering with Project Harar. Talk with your company and encourage them to join our fundraising campaign.

If you're interested in any of these ideas, [please get in touch!](#)
